

SAKARYA UNIVERSITY INFORMATION SYSTEM (SABIS)

SABIS is an integrated University Management Information System developed within Sakarya University, containing many subsystems.

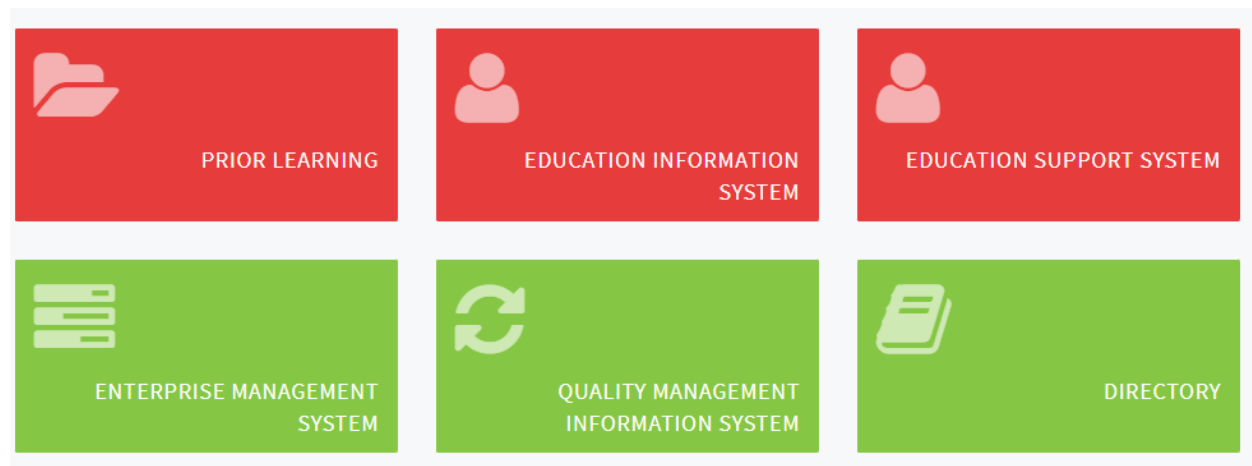

1. SAU E-MAIL

A university email account is created for our students. Throughout your studies, announcements on various topics such as academic processes, courses, conferences, and events are sent to your SABIS email account. Additionally, students are required to use their SAU MAIL account to send any information requests or necessary documents to university departments and staff. To use SAU MAIL, you must first activate your email account. When you click on SAU MAIL, a user agreement policy will appear. You can start using your email by accepting the agreement. This is a one-time process. SAU MAIL uses the Gmail infrastructure, so if you have an active personal Gmail account, you need to sign out before activating your SAU MAIL account. Later, if you wish, you can forward your SAU MAIL emails to your personal Gmail account through the settings menu.

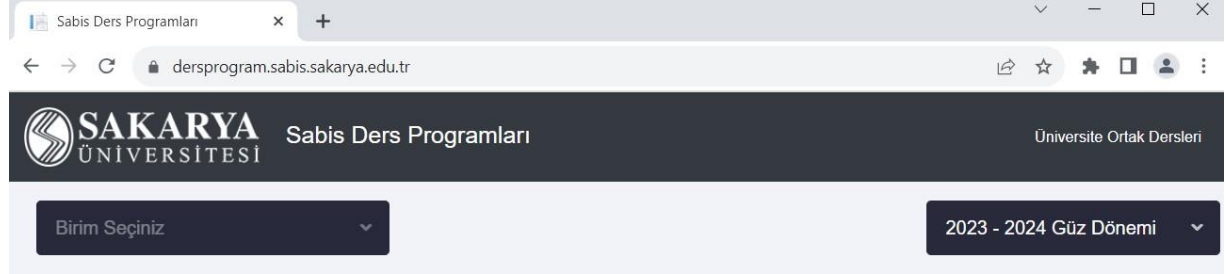

2. EDUCATION INFORMATION SYSTEM

The Education Information System (<https://ebs.sabis.sakarya.edu.tr/>) provides information on the course plans, course contents, departmental aims and objectives, and program outcomes for the associate, bachelor's, master's, and doctoral degree programs offered by our university.

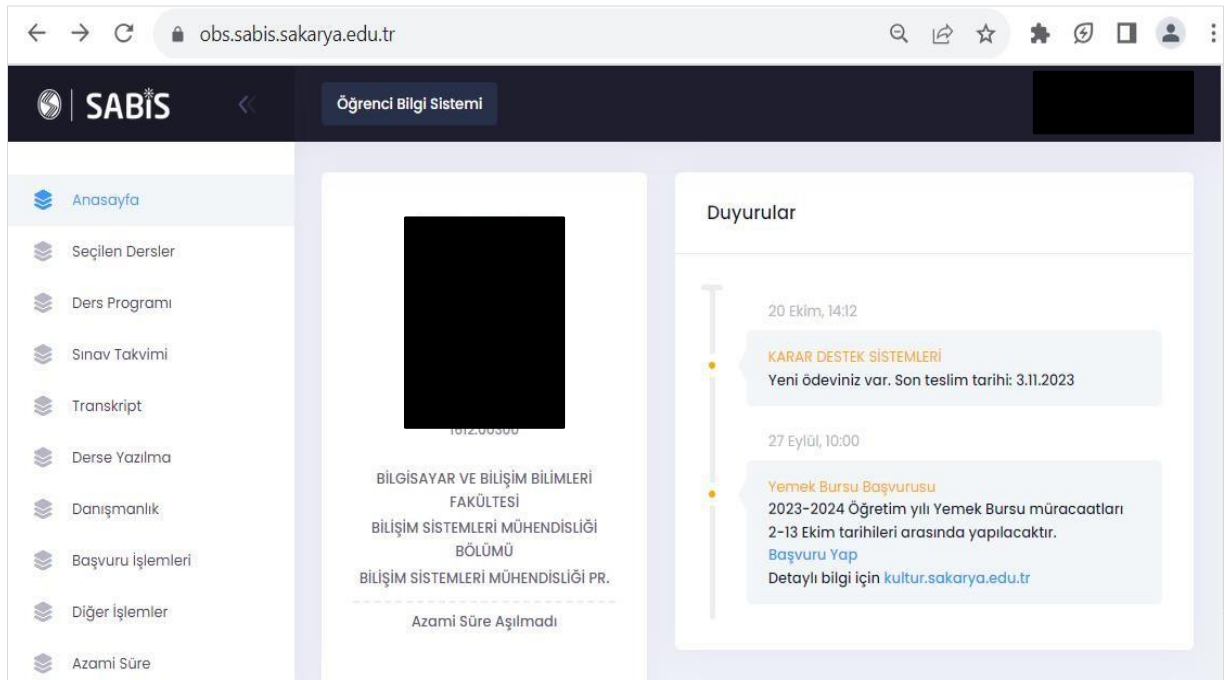

3. COURSE SCHEDULES

Weekly course schedules for all degree programs can be accessed on the Course Schedules page (<https://dersprogram.sabis.sakarya.edu.tr/>). By selecting a department from the page, you can view the weekly course schedule for the relevant program.

4. STUDENT INFORMATION SYSTEM (OBS)

The Student Information System (hereafter referred to as OBS) is an information system through which students manage their course registration online. In the system, students can view the courses they have selected on a yearly/semester basis. They can follow announcements made by course instructors related to classes, exams, virtual classrooms, and assignments, as well as general announcements and notifications about the system. They can view their semester course schedule, participate in surveys for selected courses at the end of the semester, view their transcript and cumulative GPA, and communicate with their advisor regarding course selection. These services are explained in detail below.

4.1. Home Page

Announcements related to the course are listed on the OBS home page as well as on the course information page.

4.2. Selected Courses

The courses you are enrolled in during the semester are listed on the Selected Courses page. Clicking on a course takes you to the course information management. From the course menu, you can perform the following actions:

4.2.1. Announcements

When you click on a course on the Selected Courses page, announcements for that course are listed.

4.2.2. Grades

Your midterm and final exam grades are listed. At the end of the semester, your Letter Grade is published. To view the end-of-semester letter grade, the course survey must be completed.

4.2.3. Class Average

This page displays class statistics, including the minimum score, maximum score, and class average for exams.

4.2.4. Class Time and Location

The day, time, and classroom information for the course are displayed.

4.2.5. Course Materials

Documents related to the course, such as presentations, Word files, PDFs, and videos uploaded by the instructor, are listed.

4.2.6. Assignments

The Assignments section lists assignment information related to the course. Assignments may be submitted in person or through the system. The instructor specifies and announces the submission method, start date, and end date for assignments.

Ödevler

Ad	Başlangıç Tarihi	Bitiş Tarihi	Erişim Tarihi	İşlem
1. Ödev	20.10.2023 10:00:00	3.11.2023 21:00:00	20.10.2023 12:00:00	Detay Sorun Bildir

The above figure shows an assignment given for a course. If you think there is an issue with the assignment, you can provide feedback by clicking on '**Report Issue.**'

Clicking the '**Details**' button opens the assignment details page. From here, you can download the assignment file and upload your completed assignment. If your assignment consists of multiple files, they must not be uploaded separately; instead, you should combine them into a single folder and upload it. The assignment file you upload must be compressed/archived. Files up to a maximum size of 25 MB can be uploaded.

If the assignment is to be submitted in person, no upload area will be available in the system, and only the assignment file can be downloaded.

Dosyayı sürükleyin veya Yükle butonuna tıklayın

Göndermek istediğiniz dosyayı seçtikten sonra "Gönder" butonuna tıklayın. Sadece arşivlenmiş ".zip" uzantılı dosyaları yükleyebilirsiniz. (Maksimum 25MB)

Geri

Gönder

After uploading the assignment to the page, be sure to click the 'Submit' button. You have a maximum of three upload attempts for each assignment. The instructor will always view the last uploaded file. Unless otherwise specified, the programs you use to prepare your assignment should be compatible with the Windows operating system.

4.2.7. Virtual Classrooms

The Virtual Classrooms page lists any scheduled or past online lessons related to the course. By clicking the 'Join' button next to the virtual classroom, you can join the class live. You can also rewatch the lesson from the same list.

Sanal Sınıflar					
Hafta	Açıklama	Başlangıç Tarihi	Süre		
4	4. Hafta Sanal Sınıf	25.10.2023 22:07	60	Katıl	Sorun Bildir
5	5. Hafta Sanal Sınıf	31.10.2023 22:07	60	Katıl	Sorun Bildir
6	6. Hafta Sanal Sınıf	07.11.2023 22:08	60	Katıl	Sorun Bildir

4.2.8. Exams

Online exams are listed on the Exams page. When you click on the “Join Exam” button, the system directs you to the online exam system.

Sınavlar					
Ad	Başlangıç Tarihi	Bitiş Tarihi	Süre	Durum	
ISE415 KARAR DESTEK SİSTEMLERİ I.A. 1. Kısa Sınav					Sınav Katıl Sorun Bildir
ISE415 KARAR DESTEK SİSTEMLERİ I. Ara Sınav					Sınav Katıl Sorun Bildir

In the online exam system (<https://esinav.sabis.sakarya.edu.tr/>), an information page is first displayed, showing the exam start and end times along with the exam rules. You can start your exam from this information page. Online exams may include multiple-choice, true/false, and open-ended questions.

The questions and options are presented in a different order for each student. Questions are displayed sequentially, and you can navigate forward and backward between questions.

Answers are saved in real-time. Changes to answers can be made throughout the exam period, and your last answer is the valid one.

If you experience a brief internet connection interruption during the exam, you can continue as long as your session is not terminated. Once the exam has ended, you cannot re-enter.

Incorrect answers do not affect correct answers.

4.2.9. Attendance Status

The courses you have attended are listed based on the attendance information entered by the instructor in the system.

4.3. Course Schedule

The weekly days and times of all the courses you have enrolled in during the semester are displayed.

4.3. Exam Schedule

If the midterm and final exam schedule for your registered program has been entered into the system, you can view it on the 'Exam Schedule' page. Additionally, exam schedules are also announced on department web pages.

4.5. Transcript

The Transcript page lists courses you have never taken, along with the courses you have chosen and their grades. You can also view your semester and cumulative GPA.

The student's academic standing is determined each semester by their Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA). The GPA is calculated by multiplying the ECTS value of each course included in the GPA calculation with the grade coefficient (as specified in the regulations) for that course, summing these values, and dividing by the total ECTS credits of these courses. If this calculation is done for courses with letter grades in a particular semester, the SGPA is obtained; if it includes all courses with letter grades up to that point, the CGPA is obtained. Example GPA calculation:

1. Yarıyıl			
Ders Adı	Başarı Notu	AKTS	Ağırlık
İngilizce	BB	4	4x3 =12
Bilişim ve İletişim Teknolojileri	BA	4	4x3,5 =14
Bilişim Sistemleri Mühendisliğine Giriş	AA	4	4x4 =16
Programlamaya Giriş	AA	6	4x6 =24
Matematik I	BA	6	6x3,5 =21
Fizik I	CB	6	6x2,5 =15
Toplam		30	102
		Toplam AKTS Kredi	Toplam Ağırlık
Dönem Sonu:	30	102	Ortalama 102/30=3,40
Genel:	30	102	102/30=3,40
2. Yarıyıl			
Ders Adı	Başarı Notu	AKTS	Ağırlık
Türk Dili	BA	4	4x3,5=14
İşletme Bilimine Giriş	DC	4	4x1,5=6
Matematik II	BA	6	6x3,5=21

Nesneye Dayalı Programlama	AA	6	6x4=24
Fizik II	DC	6	6x1,5=9
Lineer Cebir	BA	4	4x3,5=14
Toplam		30	88

	Toplam AKTS Kredi	Toplam Ağırlık	Ortalama
Dönem Sonu:	30	88	88/30=2,93
Genel:	60	190	190/60=3,17

As shown in the example above, as semesters progress, the cumulative GPA (CGPA) is calculated based on all courses, grades, and ECTS credits up to the relevant semester. In the calculation of CGPA and SGPA, three decimal places are used, but the result is displayed with two decimal places. For rounding, if the third decimal place is between 0-4, it is rounded down; if it is between 5-9, it is rounded up.

4.4. Course Enrollment

Course selections are made on the OBS page on the dates specified in the Academic Calendar. When you start the enrollment process, an information page is displayed first, after which you proceed to the page where courses can be selected.

1. Yarıyıl

Ad		T+U	Grup	AKTS	Not	
MAT111	MATEMATİK I	4 + 0	A	6	BA	Ekle
FIZ111	FİZİK I	3 + 2	B	6	CB	Ekle
ISE103	BİLİŞİM VE İLETİŞİM TEKNOLOJİLERİ	Ders Programı Çarşamba - 9 Çarşamba - 10 Çarşamba - 11			BA	Ekle
ISE105	PROGRAMLAMAYA GİRİŞ	4 + 0	A	6	AA	Ekle
ISE101	BİLİŞİM SİSTEMLERİ MÜHENDİSLİĞİNE GİRİŞ	2 + 0	A	4	AA	Ekle
ING191	İNGİLİZCE	4 + 0	B	4	BB	Ekle

3. Yarıyıl

Ad		T+U	Grup	AKTS	Not	
ISE207	NESNEYE DAYALI PROGRAMLAMA	4 + 0	A	6	AA	Ekle
MAT211	DİFERANSİYEL DENKLEMLER	4 + 0	A	6	CC	Ekle
MAT217	SAYISAL ANALİZ	3 + 0	A	5	CB	Ekle
ISE205	OLASILIK VE İSTATİSTİK	3 + 0	A	5	AA	Ekle

On the enrollment page, the courses you can take in the relevant semester are listed. To select a course, click the 'Add' button next to the desired course. When you attempt to add a course, the system checks for conflicts. If the course you are taking for the first time or failed due to absenteeism conflicts, the system will issue a warning. In such cases, the system does not allow you to select the conflicting course but provides an option to add another course type if available. If the course you wish to add is 'elective' and has a quota, you can add it within the available capacity.

- First-year students must select all courses offered in the relevant semester.
- From the second semester onward, students must first enroll in courses from previous semesters in which they failed, never took, or did not meet attendance requirements. If these courses are from different semesters, students must start with the lowest semester courses and then choose courses for the current semester.
 - Students with a CGPA below 1.80 can enroll in a maximum of 25 ECTS credits from their current and lower semesters.
 - Students with a CGPA of 1.80 or above can enroll in up to 30 ECTS credits, plus an additional 10 ECTS credits or 2 courses from their current and lower semesters.
- Students who have passed all courses up to their current semester and have a CGPA of 3.00 or higher may take courses from the next level in addition to their current semester. These students can enroll in up to 30 ECTS credits plus an additional 15 ECTS credits or 3 courses in one semester.
- Students enrolled in double major and minor programs may enroll in up to 30 ECTS credits plus an additional 15 ECTS credits or 3 courses from both programs in one semester.

You can select a different elective course to replace an elective course you previously failed or retake the same course. This can also be done to improve your grade. When doing this, the system will warn you that the previous course and its grade will be deleted at the end of the semester. For example, if you wish to replace a previously taken 'Marketing Management' course with a grade of CC with another elective course, the following warning will appear.

Notu olan bir ders yerine seçim yapmaktasınız. PAZARLAMA YÖNETİMİ dersi (CC) notu dönem sonunda silinecektir.

Kod		Ad	Grup	AKTS	Not	
ISE415	KARAR DESTEK SİSTEMLERİ BF-TEKNİK SEÇMELİ	3+0	A	5		Ekle
ISE421	PAZARLAMA YÖNETİMİ BF-TEKNİK SEÇMELİ	3+0	A	5	CC	Ekle
ISE445	KURUMSAL BİLİŞİM SİSTEMLERİ BF-TEKNİK SEÇMELİ	3+0	A	5		Ekle
ISE457	BT İLE İŞ SÜREÇ YÖNETİMİ BF-TEKNİK SEÇMELİ	3+0	A	5		Ekle
ISE475	UYGULAMALI MÜHENDİSLİK DENEYİMİ EĞİTİMİ (UMDE) BF-TEKNİK SEÇMELİ	5+10		15		Ekle

The courses you added are listed at the top of the page. After adding all the courses you wish to select and completing your checks, you must click the 'Submit for Advisor Approval' button to send the courses for approval.

After sending for advisor approval, the system will open the 'Selected Courses' menu. If you think there is an issue with your courses, you can make changes until your advisor approves them. If your advisor detects an error in the selected courses, they may ask you to redo your selection. Therefore, it is important to check messages in the 'Advising' menu on OBS during the enrollment week.

If elective courses do not reach the minimum number of students, they may be canceled on the date specified in the Academic Calendar. You can select another elective course in place of the canceled course on the 'Course Enrollment' page in OBS on the dates indicated in the Academic Calendar.

4.4. Advising

The purpose of advising is to guide the student in professional development, career, and similar topics; monitor the student throughout their studies; inform the student at the beginning of each semester during the course selection process; and evaluate the student's academic status with them to approve the necessary course(s).

Through OBS > Advising, you can send messages to your advisor and track their responses.

4.5. Application Procedures

The Application Procedures service includes modules for:

- Double major program applications and registrations,
- Minor program applications and registrations,
- Single course exam applications,
- English course exemption exam applications,
- English proficiency exam applications,
- Meal scholarship applications,
- Social transcript activity applications and document viewing,
- Maximum time limit exam applications.

Each module is activated according to the application schedule and remains closed outside of these dates."

5. QUALITY MANAGEMENT INFORMATION SYSTEM

You can use this service (<https://kys.sakarya.edu.tr/>) to convey your thoughts, suggestions, requests, satisfaction and complaints to the units within the university.

6. GUIDE

The contact information of our university's academic and administrative staff can be accessed at <https://rehber.sakarya.edu.tr>.

7. MEAL MENU

The monthly meal menu can be accessed at <http://menu.sakarya.edu.tr/>.

8. SKS SPORTS APPOINTMENT

To use the seven sports facilities within our university, an appointment must be made through the appointment system (<https://sks.sabis.sakarya.edu.tr/>).
